

**e-learning  
for kids**

## Who We Are & What We Do

We are here for every child with a dream. Since 2005, we have been developing free, digital, and innovative lessons for underprivileged children who are 5-12 years old. Our digital curriculum includes subjects such as mathematics, science, language arts, health-, life-, environmental- and computer skills. Our e-lessons will give children access to their dreams. See us as a foundation that helps make dreams come true. Children enjoy working and learning on the computer. Our digital lessons are designed to inspire learning in a fun way so that they will gain important knowledge. It is our belief that every child deserves a chance to reach their full potential, despite challenging circumstances. At present, more than 7 million children in over 190 countries have used our digital lessons.

## How Can You Benefit?

- Use our e-lessons with your children and/or students
- Volunteer your time. Develop a storyboard for an e-lesson
- Support your school by providing them with our free e-lessons

## How Can You Help?

- Volunteer your time. Develop a storyboard for an e-lesson
- Introduce e-learning for kids at other non-profit organizations, schools, teachers and children
- Make a direct and secure tax deductible donation via our website
- Fund the development and/or translation of our e-lessons
- Include e-learning for kids in your company Corporate Social Responsibility initiatives
